Re: Flying Diamond Land and Mineral Corporation
Application for Drilling Permit in NE $\frac{1}{4}$ of
Section 13, Township 1 South, Range 2 West,
Uintah Special Meridian, Duchesne County, Utah

Gentlemen:

Enclosed herewith please find Application for Permit to Drill, Deepen or Plug Back executed by Flying Diamond Land and Mineral Corporation dated January 10, 1970, in triplicate for a location in the NE $\frac{1}{4}$ of Section 13, Township 1 South, Range 2 West, Uintah Special Meridian, Duchesne County, Utah. We should appreciate your acting upon this Application at the earliest possible date inasmuch as it is imperative that operations be commenced immediately.

We have not yet received the surveyor's plat covering this location, but will forward it to you promptly upon its receipt. It is possible that the actual location may be slightly off the existing spacing pattern inasmuch as acreage adjoining that of Flying Diamond in the NE $\frac{1}{4}$ is held by Chevron Oil Company, and it is, of course, necessary that this location be situated upon Flying Diamond's leasehold acreage. The deviation, if any, will be immaterial and only very slight.

Thank you very much for your assistance.

Very truly yours,

C. Keith Rooker

PROPOSED CASING AND CEMENTING PROGRAM

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	SETTING DEPTH	QUANTITY OF CEMENT
12 3/8	10 3/4	600 24#	600'	as needed 250# SX
8 3/8	7"	21#	11,400	as needed 900# SX

We will use a Gel base mud with gradual and approximate build up in weight to 10.2 lbs. We plan to test all significant shows.

We will use high pressure blowout preventor for 4 $\frac{1}{2}$ " drill pipe & hydril for collars with kill lines, high pressure pipe & valves.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.

Re: Well No. E-13-15-2W
Section 13, T. 1 S, R. 2 W,
Duchesne County, Utah

Gentlemen:

Please be advised that on January 14, 1970, Chevron Oil Company filed an application requesting that 640-acre drilling and spacing units be established for certain lands in Duchesne County, Utah, which included Section 13, T. 1 S, R. 2 W, U.S.M.

Therefore, approval to drill the above mentioned well cannot be granted as the said well is off the location pattern proposed by said spacing application. (Rule C-4, General Rules & Regulations and Rules of Practice & Procedure)

Very truly yours,

DIVISION OF OIL & GAS CONSERVATION

Attention: Mr. Cleon Feight

Gentlemen:

Reference is made to that certain application for permit to drill, deepen or plug back filed by Flying Diamond Land & Mineral Corporation dated January 10, 1970, relative to E-13-15-2W, Bluebell Field, Duchesne County, Utah, applying for a permit to drill in the NE $\frac{1}{4}$ of Section 13, Township 1 South, Range 2 West, Uintah Special Meridian. You have called our attention to the fact that Item 15 of said application contains a clerical error in that it describes the distance from the proposed location to the nearest property or lease line as 1120' FWL and 1120' FSL, whereas, the proposed well being located in the NE $\frac{1}{4}$ of the Section, Item 15, should read 1120' FEL and 1120' FNL.

You have advised us that this error was not noted prior to your letter of January 15, 1970, declining approval to drill this well, and that this error has no bearing whatever upon your decision in that respect. The balance of the application, of course, properly describes the well as located in the NE $\frac{1}{4}$ of the Section. This letter will constitute our authority to you to modify Item 15 by interlineation in accordance with the intent of Flying Diamond as stated in this letter.

Very truly yours,

C. Keith Rooker
